Scott,

It is a pleasure to meet you!

I understand you met my colleague, Delia, at GTC this year. I am a member of the construction account team here at NVIDIA and would be pleased to help you out.

Mind if we find time early next week to learn more about your teams project?

I'm open Monday @1pm CST and Tuesday 10am CST.

Let me know!

Cheers,
Antonio

Hi Antonio

a few things have happened since GTC

1. We built and deployed ROXY — a 27-tool AI agent running on our own self-hosted GPU. Not a wrapper on OpenAI. Our own fine-tuned model on our own hardware. You can call her right now: (337) 486-3149
2. We have a meeting with Ornn (the GPU compute derivatives exchange, Bloomberg-listed) tomorrow morning to discuss listing ADC as an early compute provider and RVS hardware protection for our first rack procurement.
3. Our engineering package is now at 24 blueprints, 22 US vendors spec'd, and we added a flare gas deployment model — containerized compute at Louisiana well sites converting waste gas to GPU-hours.

We are targeting Vera Rubin NVL72. Building to DSX spec. I really need an Account Rep connection and NPN access.

adc3k.com/investor-pitch — updated this week with everything above.

Scott,

Thank you for the context on your project. Let's get synced up asap, what's your availability like tomorrow and Wednesday?

Here are a few times we can meet:

Tuesday March 31st @10am / 10:30am
Wednesday April 1st @9am / 10am / 11am / 4pm

Let me know if any of these times work for you!

Cheers,
Antonio

Hi Antonio

Wednesday at 10 a.m. works for me. What time zone?

Scott

Scott,

Apologies, I meant CST as I am in Austin.

I'll send an invite now and if you need to adjust let me know.

Chat soon.

Cheers,
Antonio
